

Product

# VIDAR 16

The VIDAR 16 is the original, and still the best crimping tool with self-adjusting dies for producing a square crimp profile on wire ferrules 6.0-16.0 mm<sup>2</sup>/AWG 10-6 (produced to DIN 46228-parts land 4 or UL 486F).

The standout feature of the VIDAR tools is their ability to produce a very clean, square crimp, well compressed and with very little distortion along the length of the crimped ferrule.

The VIDAR 16 has an adjustment for crimp- ing larger sizes which minimises the hand force needed to crimp larger ferrules.

- Proven design
- Adjustment facility for tool calibration Comfort handles with a non-slip insert in the fixed handle
- Well balanced so that the tool does not slip out of the hand
- Full cycle crimp mechanism to ensure consistent, reliable crimps
- Ratchet release mechanism to clear miscrimps and obstructions
- Each tool has a unique serial number for traceability

Crimp profile

#### TECHNICAL DATA

**Length:** 220 mm/8.66"

**Width:** 23 mm/0.91"

**Height:** 70 mm/2.76"

**Weight:** 581 gr/1.28 lb

**Wire size:** 6-16 mm<sup>2</sup> / AWG 10-AWG 6

**Life span, cycles:** 50.000
